Oceania Road Championships and Round 1 of the ProVelo Super League
SA Kick It is a three-day points-based event comprising an individual time trial (ITT), road race and criterium. It includes the 2027 Oceania Road Championships as part of the opening round of the ProVelo Super League (PSL). The SA Kick It overall classification is decided by points accumulated across the three stages.

1 Governing regulations and championship titles

The event will be conducted under UCI and AusCycling regulations. This document sets out the PSL and Oceania Championship entry arrangements, event-specific exceptions and points allocations for SA Kick It. UCI points will be awarded in accordance with the applicable UCI regulations for the time trial and road race.

The ITT, road race and criterium are all Oceania Road Championships events. The winners of each day's competitions will be crowned Oceanian Champion for the relevant event and category. The Oceania Championship titles are separate from the three-stage SA Kick It overall points classification.

2 Categories and stage participation

Elite and U23 events will be run together. U19 events will have standalone events, including in the criterium. Men and women compete in separate races.

In the combined Elite and U23 events, if an elite rider is first across the line, in the combined elite and under 23 race they win the elite Oceania Road Championship title and the first placed U23 wins the U23 Oceania Road Championship title. If an U23 rider is first across the line, they win the elite Oceania Road Championships title, and no U23 Oceania Road Championships title is awarded.

Subsequent championship placings follow the finishing order within each age category. For the ITT, placings are determined by the official timed results. These separate championship placings do not change the shared Elite and U23 PSL stage points allocation in section 5. Individual riders and teams may enter any stage or combination of stages, subject to the obligations for fully registered PSL teams below. Entry in all three stages is not compulsory. Finishing one stage is not a prerequisite for starting the next stage.

Four criterium races. The criterium day comprises four races: U19 women, U19 men, combined Elite and U23 women, and combined Elite and U23 men. U19 riders do not race with Elite or U23 riders. Within each gender, Elite and U23 riders compete for one shared allocation of criterium points at 100%; U19 riders receive points in their separate race at 75%, as set out in section 5.

3. Team entries and rider selection

There is no cap on the number of riders a team may enter for this open championship. Each fully registered PSL team has six riders covered by its season fee. Any additional riders must be entered as individuals.

Each fully registered PSL team must:

- Meet the minimum rider requirements as per the PSL registered team regulations for every stage of the Elite event, in which Elite and U23 race together.
- Enter both registered U19 riders in every U19 stage, where the team has registered U19 riders.

Teams may select different riders for each stage. Riders do not have to finish one day's competition to start the next day. There is no teams classification for the SA Kick It event.

Eligible points still count towards the PSL season team standings, as set out in section 7.

4. Clothing and equipment

For this round, individual entrants may wear clothing of their choice. Full time trial-specific equipment is permitted for the ITT, subject to the applicable AusCycling equipment regulations. These arrangements are specific to SA Kick It. Race radios are allowed for ITT only.

5. PSL points for individual stages

Elite and U23 riders compete for the same stage points at 100%. U19 riders receive 75% of the base stage points in their separate races. All stage points count towards both the rider's SA Kick It round total and PSL season individual total. Retain fractional points exactly as listed.

For the ITT, road race and criterium, award one set of points to the first ten riders in the combined Elite and U23 result for each gender, based on their overall finishing place. Elite and U23 riders use the same 100% table; there is no separate U23 allocation or pass-down to the next Elite rider. Award U19 points to the first ten finishers in each separate U19 race using the 75% table. The same scales apply to men and women.

Combined Elite and U23 stage points at 100 percent

Finishing place	ITT	Road race	Criterium
1	20	25	18
2	16	20	14
3	14	16	12
4	12	14	10
5	8	10	8
6	7	9	6
7	6	8	4
8	5	7	3
9	4	6	2
10	3	5	1

U19 stage points at 75 percent

Finishing place	ITT	Road race	Criterium
1	15	18.75	13.5
2	12	15	10.5
3	10.5	12	9
4	9	10.5	7.5
5	6	7.5	6
6	5.25	6.75	4.5
7	4.5	6	3
8	3.75	5.25	2.25
9	3	4.5	1.5
10	2.25	3.75	0.75

6. Final SA Kick It general classification

Elite, U23 and U19 riders compete together for one final general classification within each gender. Rank all riders from highest to lowest by the sum of their PSL stage points across the ITT, road race and criterium, using the stage points awarded under section 5. The rider with the most points is the overall SA Kick It winner. Men and women have separate general classifications.

Award the following additional PSL points once, according to each rider's place in the final general classification for their gender, regardless of age category. There are no separate final classification points for U19 or U23.

The full table applies to every rider; the U19 stage multiplier of 75% does not apply to these final classification awards.

Final place	PSL points	Final place	PSL points
1	50	10	11
2	40	11	9.5
3	34	12	8
4	29	13	7
5	24.5	14	6
6	21	15	5
7	18	16–25	2.5
8	15.5	26–50	1.5
9	13	51 and above	0.5

Calculate the final general classification from stage points before awarding the points in this table. Add each rider's final classification award to their PSL season individual total.

7. PSL season totals and team points

A rider's PSL season points from SA Kick It comprise the points earned in individual stages plus their single final general classification award. Eligible stage and final classification points earned by registered team riders also contribute to their team's PSL season tally, in accordance with PSL team registration and points attribution rules.

There is no SA Kick It event teams classification. This does not prevent eligible points from contributing to the season Teams Overall Classification. The SA Kick It stage points scales and combined age-category final general classification are specific exceptions to the standard PSL scoring arrangements.

8. UCI points

UCI points for individual stages will be awarded according to the applicable UCI regulations, including the event and category eligibility requirements.

Combined field of U23 and Elite means only 1 set of points is awarded.

Road Race

Position (combined field of Elite and U23)	Elite & U23 combined Road Race points
1	250
2	200
3	150

9. Scoring examples

Road race: a U23 rider finishes first and an Elite rider finishes second in the combined race for their gender. The U23 rider receives 25 PSL points and the Elite rider receives 20 PSL points from the same 100% table.

U19 criterium: a rider finishes sixth in the separate U19 race for their gender. Sixth place has a base value of 6 points; at 75%, the rider receives 4.5 PSL points.

Final general classification: suppose the top three stage totals within one gender are U19 47.25 points, U23 45 points and Elite 43 points. The U19 rider wins overall and receives 50 final classification points; the U23 rider receives 40 for second and the Elite rider 34 for third. Their PSL season contributions are 97.25, 85 and 77 points respectively. No further age-category awards apply. The round standings remain based on stage totals of 47.25, 45 and 43.
